

Hard Kakuro

Bonus Puzzles

A little thank-you for reading: 8 more puzzles in the same calm, large-print style as the book — a tougher set of dense 8×8 and 9×9 grids. Every one is pure Kakuro — zero given digits — with exactly one solution, reachable by logic alone. No guessing, ever.

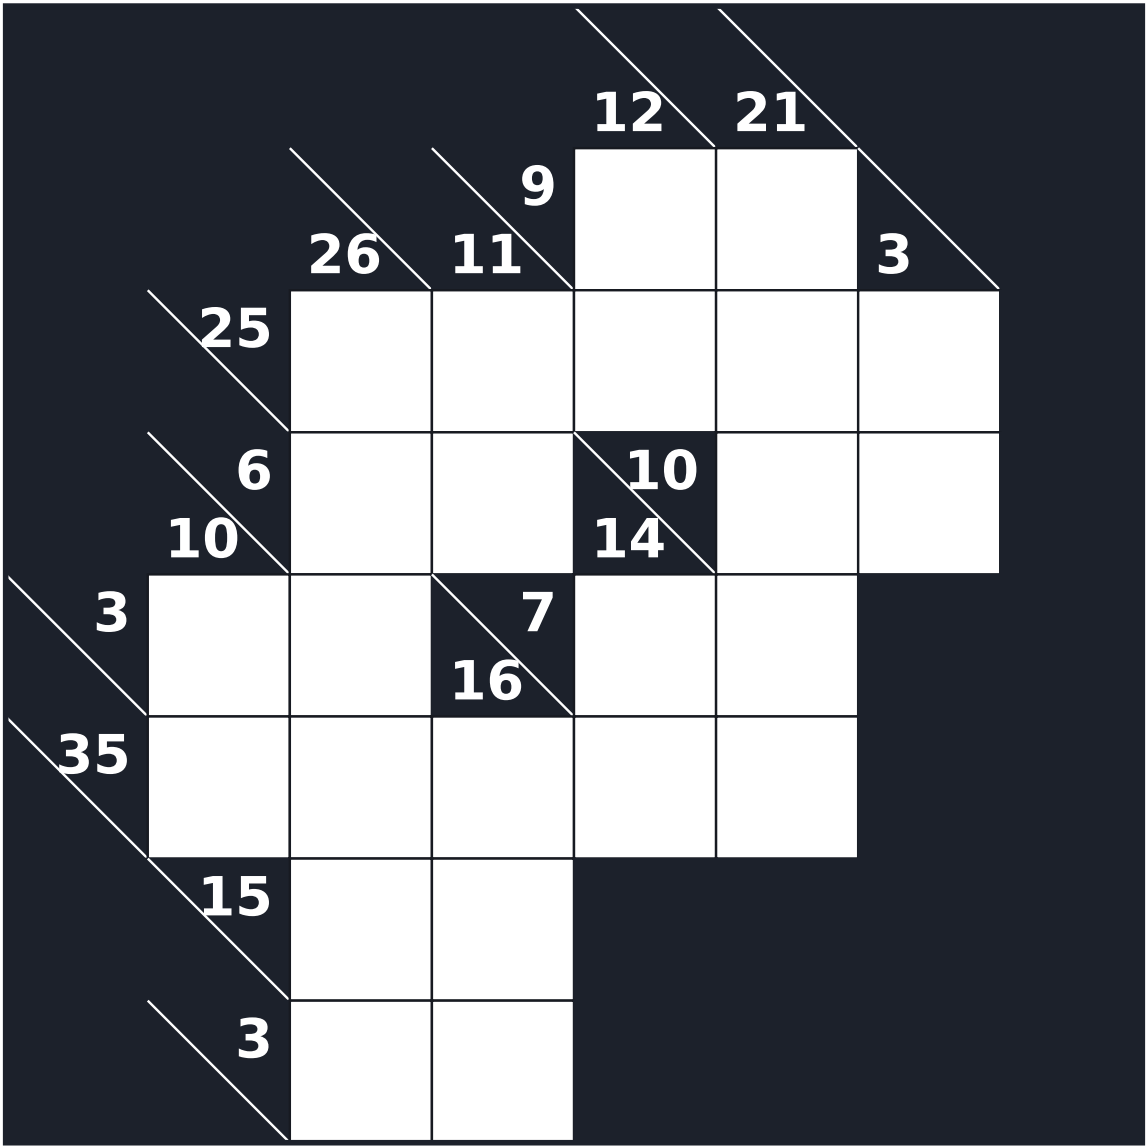

How to play: fill every white square with a digit 1–9 so each across run sums to the number on its left and each down run sums to the number above it — and no digit repeats inside a run. The finished grids are in the answer key at the back.
